Information

Carriere Family Farms is located in Glenn, California in the Sacramento Valley. We work closely with local growers to maintain excellent product quality from the orchards to the packaging department. Our partnership with Borges Mediterranean Group, a major European food brand, created Borges of California and increased both our output and our opportunities for expansion as the market for California walnuts continues to grow. Carriere Family Farms grows ten different varieties of English Walnuts, including Chandler, Howard and Hartley. We ship our California walnuts to customers around the world.
