Information

Horizon Nut Company is a cooperative pistachio processing organization owned by California family farmers. Pistachios are brought to our facilities from throughout Butte, Colusa, Fresno, Glenn, Kern, Kings, Madera, Merced, and Tulare Counties. We hull, dry and process at facilities in Tulare, Lost Hills and Firebaugh. We are an important employer and community member in the regions where our plants are located, and we work hard to support California agriculture as a whole.

We do it all so we
NEVER COMPROMISE QUALITY
100% grower owned. Pistachios processed the way farmers intended them to be.
