

## PEI Juice Works

### Our Story

Located in Bloomfield, PEI Juice Works is a producer of 100% pure Wild Blueberry juice products. Our goal is to improve the lives of consumers by producing delicious juice that delivers natural health benefits. We use Maritime products such as berries, bottles, caps, and labels. By doing this we support local growers, and local workers.

### Our Process

We employ a unique process for producing our juice. Our products are produced from an old European process that preserves and protects the natural elements provided by Wild Blueberries. This process delivers 100% pure wild blueberry juice with over 90% of the natural nutrients retained. This process also allows for an extended 2 year shelf life.

### Our Products

PEI Juice Works offers 5 product SKUs. 100% Pure Wild Blueberry Juice, Wild Blueberry & Tart Cherry Juice, Wild Blueberry & Cranberry Juice, Wild Blueberry & Rhubarb Juice and 100% Pure Wild Blueberry Juice with (Anne of Green Gable Label).

### 100% Pure and Natural

Every 375ml bottle contains more than 1 pound or 960 wild blueberries. It is 100% pure, local, no additives, no fillers & tremendous taste and flavor. We have had many customers describe it as drinking a blueberry pie, without the seeds and calories.
