The Company

A seafood supplier is simply not enough. Your company needs a partner that can provide a wide variety of products; as well as control & maintain quality. For years we have been that partner. Partner Seafood delivers quality frozen seafood products to over 40 countries around the world.

Who we are

Partner Seafood, Inc. is a privately owned company built on the mission and values of Paul Farrah, our owner. Paul has over 20 years experience in the industry. From humble beginnings, Partner Seafood has grown to be a trusted, responsible provider of the ocean's harvest for 10 years. Over that time we have exported products to over 40 countries around the world.

Our growth has yielded two value-added brands, and a second processing line. As well, we have recently constructed a state-of-the-art facility, cold storage facility and warehouse.

We are confident that we will continue growing by consistently delivering; while changing to best meet the needs of partner clients and our fishermen.

Mission & core values

Our mission is to feed the world food from our oceans. This comes with a lot of responsibility. That means that everything we do in business has to feel good or right.

We want to remain a leader in our business, but that doesn't mean from the bottom line. We are committed to innovation and progress in the industry. Our team is committed to providing the best product, to the best companies with integrity.
